Serial No.: 10/675,254 Docket No.: 49288.0800

## Amendments To Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

## Listing of Claims:

- 1. (Currently Amended) A method for injecting a liquid drug containing a biological material cell, comprising the step of:
  - A) injecting the liquid drug containing the biological material cell contained in an injector into a subject at a predetermined range of velocity wherein the predetermined range of velocity is at least about 1 ml/min, and is less than, or equal to about 20 ml/min.
- 2. (Currently Amended) A method according to claim 1, wherein the predetermined range of velocity maintains a biological activity of the biological material cell.
  - 3. (Cancelled)
- 4. (Original) A method according to claim 1, wherein the predetermined range of velocity is less than about 10 ml/min.
  - 5. (Cancelled).
  - 6. (Currently Amended) A method according to claim 1, further comprising the step of:
  - B) accelerating the liquid drug containing the biological material cell at a predetermined range of acceleration to reach the predetermined range of velocity.
- 7. (Currently Amended) A method according to claim 6, wherein the predetermined range of acceleration maintains a biological activity of the biological material cell.
- 8. (Original) A method according to claim 6, wherein the predetermined range of acceleration is in the range of about 1 mm/sec<sup>2</sup> to about 15 mm/sec<sup>2</sup>.
- 9. (Original) A method according to claim 1, wherein an inner diameter of a body of the injector is about 1 mm to about 30 mm.
- 10. (Original) A method according to claim 1, wherein an inner diameter of a tip tube of the injector is about 0.1 mm to about 1 mm.

2

Serial No.: 10/675,254 Docket No.: 49288 0800

## 11-13. (Canceled)

- 14. (Currently Amended) A method according to claim 1, further comprising the step of:
- C) decreasing a velocity of the liquid drug containing the biological material cell at a predetermined range of acceleration to substantially zero.
- 15. (Original) A method according to claim 14, wherein the absolute value of an acceleration of the decreasing velocity is in the range of about 1 mm to about 15 mm/sec<sup>2</sup>.
- 16. (Currently Amended) A method according to claim 1, wherein the injection is carried out for treatment or prophylaxis of a heart disease.
- 17. (Currently Amended) A method for treating an organ using a liquid drug containing a biological material cell, comprising the step of:
  - A) Injecting the liquid drug containing the biological material cell contained in an injector into a subject at a predetermined range of velocity wherein the predetermined range of velocity is at least about 1 ml/min, and is less than, or equal to about 20 ml/min.

18-42. (Cancelled).
